Field Trips were arranged by N.Z. Forest Products Ltd. for the inspection of certain aspects of their forest management practices including clear-felling and logging operations, treatment of regeneration areas, sample plots and thinning trial areas. Inspections were also made of sawmilling, pulp, paper-making and veneer plants.

Thanks were expressed by the President to the members for their attendance, to those who had contributed papers, to the Council Treasurer and Secretary for their support during the year and especially to N.Z. Forest Products Ltd. for their good work as hosts and organisers for this year’s annual general meeting.

ROTORUA SECTION

The section continues to be active, with a membership of 70 and attendances of from 25 to 45 at its regular meetings. At the Annual Meeting on the 12th May, Mr. J. E. Henry was elected Chairman, Mr. P. J. McKelvey Secretary, and Messrs. Cameron, Nicholls and Slow to the Committee.

Addresses given during the year were:
"Some Aspects of Malayan Forestry" by T. H. Strong.
"A New Zealand Insect Survey" by T. C. R. White.
"Silvicultural Problems at Kaingaroa" by L. J. Slow.
"Pumice Soils and Forests, with special reference to Exotic Sites" by Mr. C. Vucetitch.

On the 10th August a debate was held on the question "Does logging practice in New Zealand unduly dominate and restrict silviculture?" It is understood that the loggers won.

A successful annual field day was held at Kaingaroa, with the Kaingaroa Logging Company acting as hosts.

PUBLICATIONS RECEIVED

Receipt of publications during the period 1 September 1956 to 31 May 1957 is acknowledged with thanks by the Institute of Foresters. A selected list is given below.

_Literature received by the Institute is available on loan to members on application to the Librarian, G. C. Weston, c/o Forest Research Institute, Whakarewarewa, Rotorua._
