must reach the Registrar, Auckland University College by 31st March, 1935. The prize will be the sum of £5.

The first award of the Sir William Schlich Memorial Prize was made last year to J. W. Syme, B.Sc.F. This prize is derived from a portion of the fund subscribed in memory of the late Sir William Schlich, and may be awarded to the forestry student obtaining the highest aggregate of marks in his final year, providing that he takes the whole of his third professional examination in that year.

Mr. Syme came to the School of Forestry in 1929 with a Taranaki Scholarship, and had a very creditable record throughout his college course. He is now with the forestry branch of the N.Z. Railways.
